

Faculty Development Program

The total funding requested from NRC in this proposal is \$450,000 spread over a three year period. This will be supplemented by \$222,000 of University matching support during the same period. A total of \$224,000/year (NRC and University funding) will be available over the three year period of the grant, for a total investment of \$672,000.

During each year of the program, two Engineering faculty members will each be awarded \$112,000 NRC Faculty Development Grants. Each faculty grant is for a period of one-year and is non-renewable. The \$112,000 provided to each faculty member will provide salary support, graduate student support and funds for equipment/facilities.

During the course of the three year grant period, a total of six Swanson School of Engineering faculty members will receive NRC Faculty Development Grants of \$112,000 each.
